Only completely filled out applications should be signed by the external company officer (in the case of framework contract partners) or a project manager (Aurubis AG) and e-mailed to

ausweise.hamburg@aurubis.com !

We are applying for a permit for the employees listed below to enter the plant premises of Aurubis AG Hamburg – within the scope our work assignment – with a vehicle or multiple vehicles that is/are necessary to fulfill the assignment. These include workshop vehicles, lifting vehicles, and tank vehicles, for example. **Cars and other private vehicles receive no access authorization under any circumstances!**

We are aware that the German Traffic Code (StVO) is in effect on the entire plant premises. In particular, **wearing a seatbelt is mandatory**, and **phoning while driving is prohibited** without a hands-free phone system. The speed limit in the entire plant is **25 km/h**. Areas with a lower speed limit have separate signs that must be followed.

Entry is permitted workdays (Monday to Friday) from 5:45 a.m. to 3:00 p.m. through **South Gate 2 (Süd-Tor 2) only** (Müggenburger Strasse 6). Please exit through **Plant East (Werk Ost, Müggenburger Hauptdeich 2)** as before.

The entry permit is not transferable! People with authorized vehicles are only allowed to enter if they have been approved and registered in the system in advance. A valid driver's license must be shown at the entrance upon request.

If the rules in effect on the plant premises are violated or incorrect information is provided when applying, Plant Security reserves the right to revoke the entry permit(s) issued. To ensure that the vehicle driver can be reached, the "Driver Reachability" ("*Fahrererreichbarkeit*") form has to be obtained and filled out upon entry and placed in a visible location behind the vehicle's windshield.

A valid external company ID is required for entry authorization!

External company ID number	Name of driver	License plate number	Date	
			from	to

Reason for the entry permit:

Mark of approval

	Date	Name in print	Signature
Construction site manager from external company			
External company officer (in the case of framework contracts) or Aurubis project manager			
Plant Security/ID Office			

I hereby confirm, as the construction site manager/person responsible from the external company, that I have acknowledged the rules of conduct on the back of this application and will follow them. I will train/instruct my subordinate employees and ensure that the rules are observed! I have understood the consequences of violating the rules.
